/DESIGN/

The boat has been designed around her stern, an equipment room that remains low and invisible. Something that has never been done on any other RIB of this size. The stern gives a strong indication of her overall shape, designed to be functional in use. She has a large sun deck, a diving board with wooden grating and two convenient side gangways which make this area extremely usable.

/CLASSIC/

Pirelli Pzero 770 was the first boat conceived in the range, the forerunner of many of the ideas applied to the entire Pirelli Pzero series for sailing comfort and safety.

Standard Farbe

ORCA Artic grey - Mambo Red

ORCA Military grey - Mambo Pearl Platinum
